COMMENTARY

Overview and trading environment

Consumers in the middle income market, which represent the core customer in Clicks, have remained under pressure over the past year.

This pressure is evident in the low level of real growth in the private healthcare market and the continued reliance on promotional activity to drive volume in the health and beauty markets. These factors have also contributed to selling price inflation remaining constrained.

The Clicks chain reported improved sales growth in the second half of the year, despite the headwinds facing the consumer. Clicks has strengthened its competitive position and gained share in all of its core health and beauty markets.

UPD continues to achieve its strategic objectives and increased total managed turnover by 43.9% to R11.5 billion. This includes wholesale turnover and notional turnover managed on behalf of distribution agency clients.

The group's solid financial and operational performance for the year has resulted in the return on equity again being at a sector-leading 55.6%.

Financial performance

Group turnover increased by 13.6% to R17.5 billion, with continued low selling price inflation which averaged 2.6% for the year. Retail sales grew by 7.9% while UPD increased turnover by 22.8%. All the group's businesses recorded volume growth in the tough consumer economic climate.

Total income increased by 9.8%. The retail total income margin improved by 30 basis points to 33.3% driven by private label margin growth and well managed promotions in Clicks. UPD's margin was impacted by supplier mix and declined from 8.9% to 8.5%.

Operating expenses grew by 10.0%. Retail costs increased by 9.6% with continuing investment in pharmacy, stores and

IT systems. Comparable retail cost growth was contained to 7.8%. UPD's cost growth of 14.3% includes additional variable bulk distribution and temporary warehouse costs, with comparable costs increasing by 6.1%.

Operating profit increased by 9.1% to R1.1 billion and the group operating margin was 30 basis points lower at 6.3% as a result of the faster growth rate in the lower margin UPD business.

Diluted headline earnings per share grew by 9.2% to 298.6 cents, at the upper end of the earnings guidance range provided at the interim results in April.

The total dividend was increased by 10.5% to 168.0 cents per share.

Group inventory days improved from 63 to 59 days. Inventory levels were managed below turnover growth across all brands.

The group remains strongly cash generative with cash inflow from operations increasing 33% to R1 013 million, mainly through improved management of working capital. During the year R748 million was returned to shareholders through dividend payments and share buy-backs as part of the group's ongoing commitment to return excess cash to shareholders. Capital expenditure of R310 million was R54 million higher than the previous year owing mainly to the investment in UPD's infrastructure.

Trading performance

Retail sales growth was driven by the 8.6% sales increase in Clicks, with comparable store sales growing by 5.8%. Clicks opened a net 22 new stores to extend the footprint to 442, with 331 in-store pharmacies. Membership of the Clicks ClubCard loyalty programme has grown to 4.1 million.

Musica continued to gain market share in CDs and DVDs, despite the net closure of 14 stores. The brand's comparable store sales increased by 5.9%. The Body Shop increased

turnover by 11.3%, benefiting from the opening of four new stores during the year.

UPD increased turnover by 22.8% and grew its share of the private pharmaceutical wholesale market from 24.3% to 26.7%. UPD has become an increasingly significant player in the bulk distribution market and now has 20 distribution agency clients.

Prospects

The group remains focused on delivering excellence in health and beauty retailing and healthcare supply management. The current weak consumer spending environment is anticipated to continue and trading over the important festive season period will be critical to performance in the year ahead. Selling price inflation is expected to be 4% - 5%for 2014.

The Clicks footprint will be expanded with the planned opening of 25 new stores and 20 – 25 dispensaries.

Capital expenditure of R338 million has been committed for 2014 for stores and pharmacies, IT systems and expanding distribution capacity in UPD.

Final dividend

The board of directors has approved a final gross ordinary dividend of 119.5 cents per share (2012: 107.9 cents per share) and a 16.8 cents per ordinary "A" share (2012: 15.2 cents per share). The source of the dividend will be from distributable reserves and paid in cash.
