## **COMMENTARY**

#### Overview

Trading conditions continued to be challenging over the past six months as consumers remained cash constrained and value conscious. In this environment the group has continued to trade well, with all the retail brands delivering real volume growth and gaining market share. The group's pharmaceutical distribution business, UPD, also continues to gain market share.

The group's diluted headline earnings per share for the half-year increased by 12.8% to 177.6 cents. The interim dividend was increased by 22.4% to 65.5 cents per share based on the reduced annual dividend cover ratio of 1.7 times.

The performance for the six months translated into a sector-leading return on equity of 53.6%.

#### Financial performance

Group turnover increased by 14.1% to R10.7 billion, with retail sales growing by 9.9% and UPD by 20.7%. Selling price inflation was contained to 3.5% for the period.

Total income increased by 11.3%. The faster turnover growth in UPD has resulted in the group's total income margin reducing 70 basis points to 26.3%.

Operating expenses in retail were 11.5% higher due to increased investment in stores, staff and advertising costs. Comparable retail cost growth was contained at 7.9%. UPD expenses grew by 9.4% owing to increased variable costs from the growth in the distribution business, and by 6.2% on a comparable basis.

Operating profit grew by 12.2% to R640 million. The retail business improved operating margin by 10 basis points to 7.3%. UPD increased operating profit by 15.7% although the increase in the lower margin generics business continues to place pressure on the margin which reduced by 10 basis points to 2.3%.

Inventory days improved from 75 to 71 days and inventory levels were 9.4% higher at the end of the reporting period.

Cash inflow from operations before working capital changes increased by R93 million to R800 million. The group returned R448 million to shareholders through dividend payments of R333 million and share buy-backs of R115 million.

Capital expenditure of R148 million was invested during the first half with a further R231 million committed for the second half of the year, mainly on store expansion and refurbishment, as well as IT systems.

#### Trading performance

The Clicks chain increased sales by 10.5% and by 7.6% in comparable stores, driven by innovative value-oriented promotions. The store footprint was expanded to 473, with 346 dispensaries and 150 clinics.

The Body Shop and GNC, the group's health and beauty franchise brands, continue to differentiate the Clicks offer. The Body Shop increased turnover by 12.2% and now has a presence in 92 Clicks stores, with 47 standalone stores. The recently launched GNC brand has four stores and a presence in 250 Clicks outlets.

Musica increased sales by 2.4% and continued to gain market share.

UPD benefited from the expected growth in its preferred supply chain partner contracts and increased turnover by 20.7%, with volume growth of 24.3%.

#### Outlook

Trading conditions are expected to remain unchanged in the second half of the year with consumer disposable income under continued pressure. Loadshedding in the winter months poses a further risk to sales in the second half of the year.

Private label now 20.4% of Clicks sales

UPD market share increased to 26.2%

Despite the headwinds in the consumer environment the Clicks chain is well positioned for continuing growth, supported by a strong value proposition, the benefits of the relaunched ClubCard and a sustainable pipeline of new stores and pharmacies. UPD will continue to entrench its leadership position in the pharmaceutical distribution market by growing scale and extracting efficiencies.

Record levels of capital expenditure of R379 million will be invested this year.

#### Full-year earnings forecast

The directors forecast that diluted headline earnings per share for the financial year ending 31 August 2015 will increase by between 10% and 15% over the 2014 financial year.

The forecast is based on the following key assumptions: the current consumer environment will not materially deteriorate; selling price inflation will average 4% to 5% for the year; and the group will continue to invest for longer-term growth, mainly in new stores and pharmacies.

Shareholders are advised that this forecast has not been reviewed or reported on by the group's independent auditor.

#### Interim dividend

The board of directors have approved an interim gross ordinary dividend of 65.5 cents per share (2014: 53.5 cents per share). The source of the dividend will be from distributable reserves and paid in cash.

#### Additional information

Dividends Tax (DT) amounting to 9.825 cents per ordinary share will be withheld in terms of the Income Tax Act. Ordinary shareholders who are not exempt from DT will therefore receive a dividend of 55.675 cents net of DT.

The company has 246 137 763 ordinary shares and 29 153 295 ordinary "A" shares in issue. Its income tax reference number is 9061/745/71/8.

Shareholders are advised of the following salient dates in respect of the interim dividend:

Last day to trade "cum" the dividend Friday, 26 June 2015
Shares trade "ex" the dividend Monday, 29 June 2015
Record date Friday, 3 July 2015
Payment to shareholders Monday, 6 July 2015

Share certificates may not be dematerialised or rematerialised between Monday, 29 June 2015 and Friday, 3 July 2015, both days inclusive.

The directors of the company have determined that dividend cheques amounting to R50.00 or less due to any ordinary shareholder will not be paid unless a written request to the contrary is delivered to the transfer secretaries, Computershare Investor Services Proprietary Limited, by no later than close of business on Friday, 26 June 2015, being the day the shares trade "cum" the dividend. Unpaid dividend cheques will be aggregated with other such amounts and donated to a charity to be nominated by the directors.

By order of the board
