## COMMENTARY

## Overview

Clicks Group produced another strong health and beauty retail trading performance in the slowing consumer spending environment. The Clicks chain again demonstrated its resilience and increased sales by $13.1 \%$, reporting good volume growth and market share gains in all core merchandise categories. Key to the performance was buoyant Christmas trading with customers responding positively to the great value offer and differentiated product ranges.

During the period Clicks implemented a long-term outsourcing agreement with the Netcare Group and took over the management of 37 Medicross pharmacies and opened Clicks front shops in 41 Netcare hospitals.

UPD, the group's pharmaceutical distributor, delivered excellent growth in operating profit of $22.1 \%$ through efficient cost and inventory management.

The group's performance for the six months translated into growth of $13.5 \%$ in diluted headline earnings per share (HEPS) to 232 cents per share while the interim dividend has been increased by $15.8 \%$ to 88 cents per share. The group continues to deliver a high return on equity of $47.2 \%$.

## Financial performance

Group turnover increased by $8.5 \%$ to R13.1 billion, with retail sales growing by $11.8 \%$ and distribution turnover by $7.5 \%$. Selling price inflation for the group was contained to $4.8 \%$.

Total income increased by $10.9 \%$ to R3.5 billion. The group's total income margin improved by 60 basis points to $26.7 \%$ owing to the favourable mix impact with the faster growth in retail.

Retail expense growth of $11.6 \%$ was contained below sales growth despite the investment in new stores and pharmacies, including the integration of the Medicross pharmacies and Netcare front shops. Comparable retail costs increased by
6.4\% for the six months. UPD demonstrated excellent cost control and reduced expenses by 2.2\% over the prior period.

Operating profit increased by $14.7 \%$ to R840 million as both retail and distribution increased margin, with the group operating margin expanding by 30 basis points to $6.4 \%$.

Inventory was well managed. Days in stock were consistent with the prior period at 73 days while inventory levels were 7.6\% higher, below the rate of sales growth.

Cash inflow from operations before working capital changes increased by $9.4 \%$ to R972 million. Capital expenditure of R249 million (H1 2016: R203 million) was invested during the first half, mainly in new stores and pharmacies, store refurbishments, supply chain and information technology.

## Trading performance

Retail health and beauty sales, including Clicks and the franchise brands of The Body Shop, GNC and Claire's, increased by $13.1 \%$, with strong growth in pharmacy and front shop health Comparable store sales grew by $8.4 \%$.

Clicks reached the 600-store mark following the opening of a net 89 new stores. The pharmacy network was expanded to 459 as a net new 59 pharmacies were opened.

UPD increased wholesale turnover by $9.6 \%$, ahead of the pharma market growth of $5.6 \%$, with market share increasing to $24.6 \%$. The core customers of Clicks and the private hospital groups now account for 81.4\% of UPD's wholesale turnover.

## Outlook

Consumer spending will continue to be constrained in the months ahead, with low economic growth, higher taxes and ongoing political turbulence weighing negatively on disposable income and consumer sentiment.

The health and beauty markets in which the group operates are relatively resilient and in the current environment management

will focus on protecting income, controlling costs and managing cash efficiently.

The group remains strongly cash generative and will continue to fund organic growth through the operating cash flows produced by the business. Capital investment has been increased to R577 million for the full financial year to support the increased scale of the group.

## Full-year earnings forecast

The directors forecast that diluted HEPS for the financial year ending 31 August 2017 will increase by between 11\% and 16\% over the 2016 financial year.

The forecast is based on the following key assumptions:

- the consumer spending environment will remain constrained in the second half of the financial year; and
- retail selling price inflation should average between 5\% and $6 \%$ for the financial year.

Shareholders are advised that this forecast has not been reviewed or reported on by the group's independent auditor.

## Interim dividend

The board of directors has approved an interim gross ordinary dividend for the period ended 28 February 2017 of 88.0 cents per share (2016: 76.0 cents per share). The source of the dividend will be from distributable reserves and paid in cash.

## Additional information

Dividends Tax ("DT") of $20 \%$ amounting to 17.6 cents per ordinary share will be withheld in terms of the Income Tax Act. Ordinary shareholders who are not exempt from DT will therefore receive a dividend of 70.4 cents net of DT.
