COMMENTARY

Operating margin up to 6.6%

Overview

Trading conditions became increasingly challenging during the year and the group also encountered the high base set in 2010, which included the FIFA 2010 World CupTM. Selling price inflation continued to decline and averaged only 1.6% for the year, compared to 5.4% in the previous year, which impacted turnover growth by almost four percentage points.

In this environment, the Clicks chain reported strong growth in turnover and operating profit as the brand showed real sales volume growth and continued to gain market share. The performance of UPD, the group's pharmaceutical wholesaler, was negatively impacted by the absence of an increase in the single exit price (SEP) of medicines by the Department of Health for 2011.

The group continues to be highly cash generative and remains committed to returning excess capital to shareholders, repurchasing shares totalling R552 million during the year.

Return on shareholders' equity (ROE) increased from 50.8% to 62.2% for the year, boosted by share buy-backs of approximately R300 million in the last six weeks of the financial year. Management has increased the medium-term target for ROE to 55%-65%.

Financial performance

Retail turnover growth of 10.9% was driven by the strong performance of the Clicks chain which reported sales growth of 13.0%. Selling price inflation for the retail businesses was 0.6% for the year compared to 5.4% in 2010. UPD increased turnover by 4.2% as price inflation in the wholesale business declined to 3.3%. Group turnover was 6.2% higher at R14.1 billion.

Total income, comprising gross profit and total income, increased by 10.9%.

Operating expenses increased by 9.9%. Expense growth was well contained in the second half of the year, with retail costs growing by 7.7%. UPD reduced expenses by 5.6% in the second six

months through improved operating efficiencies, and expenses for the year were 0.1% lower than 2010.

Operating margin improved by 40 basis points to 6.6%, resulting in a 13.9% increase in operating profit for the period.

Headline earnings increased by 13.9% to R655 million. Diluted headline earnings rose by 18.1% to 249.7 cents, benefiting from the group's share buy-back programme. Diluted HEPS has grown at a compound rate of 28.6% over the past five years.

A final distribution of 88.0 cents per share has been declared, bringing the total distribution for the year to 125.0 cents, an increase of 17.7%.

Inventory days in stock moved from 55 to 60 days and inventory levels were 14.7% higher at year-end, mainly as a result of stock levels in UPD returning to normalised levels.

Cash inflow from operations increased by R244 million over 2010 to R677 million, with R226 million used for capital expenditure and R848 million returned to shareholders through share buy-backs and distributions.

Trading performance

Clicks posted real sales growth of 12.0% and continued to grow its share of the increasingly competitive healthcare market. Clicks opened its 400th store in August 2011 as 31 new outlets were added during the period, the highest number in a single year. The national pharmacy footprint was extended to 283 with the opening of a further 32 dispensaries. The Clicks operating margin improved from 6.9% to 7.7% owing to good buying and supply chain management, while Clicks maintained its aggressive pricing strategy. Operating profit increased by 25.8%.

Musica's performance slowed in the second half and turnover for the year was 5.9% lower as the decline in the CD and DVD markets accelerated. Musica maintained market shares and showed good growth in gaming, technology and accessories.

The Body Shop's operating profit increased by 3.5% despite the brand experiencing price deflation of 6.6%.

UPD increased wholesale turnover by 4.2%, impacted by lower inflation, further decline in independent pharmacies and the changing product mix with faster growth in sales of lower value generic medicines. Operating profit was 19.4% lower than the prior year owing to the lack of a trading gain on SEP. Despite the challenging conditions UPD increased its share of the private pharmaceutical wholesale market from 22.7% to 23.1%.

Prospects

Consumer spending is expected to remain muted in the current uncertain economic climate. Inflation is anticipated to remain low and no SEP increase is expected for 2012. The group will face increasing cost pressures in employment, property, transport and utilities.

The focus for the year ahead will therefore be on driving volume and containing costs.

The group remains well positioned in the medium term through the market leadership and growth potential of its brands.

Capital expenditure of R257 million has been committed for 2012 and trading space is planned to increase by 4% to 5%.

As a result of the group's continued strong cash generation, the board has resolved to reduce the distribution cover from 2.0 to 1.8 times from the 2012 financial year, which will further enhance returns to shareholders.

Shareholder distribution

The board of directors has approved a final distribution of 88.0 cents per ordinary share (2010: 75.7 cents per share) subject to the approval being granted by shareholders at the general meeting to be held on 17 January 2012. The source of the ordinary distribution will be a capital reduction out of share premium.

In addition the board has approved a distribution of 12.5 cents per ordinary "A" share. The distribution is declared in terms of the rules of the employee share ownership programme implemented with effect 2 February 2011 that entitles the ordinary "A" shareholders to an annual distribution equal to 10% of the cumulative distribution declared in relation to an ordinary share in a financial year. The source of the ordinary "A" share distribution will be from distributable reserves.

Shareholders are advised of the following salient dates relating to the distributions:

Last day to trade "cum" the distribution

Shares trade "ex" the distribution

Record date

Payment to shareholders

Friday, 20 January 2012

Monday, 23 January 2012

Friday, 27 January 2012

Monday, 30 January 2012

Share certificates may not be dematerialised or rematerialised between Monday, 23 January 2012 and Friday, 27 January 2012, both days inclusive.

The directors of the company have determined that dividend cheques amounting to R50.00 or less due to any one ordinary shareholder will not be paid unless a written request to the contrary is delivered to the transfer secretaries, Computershare Investor Services (Proprietary) Limited, by no later than close of business on Friday, 20 January 2012, being the day that the shares trade "cum" the distribution. Unpaid dividend cheques will be aggregated with other such amounts and donated to a charity to be nominated by the directors.

By order of the board

The tax charge in the income statement as a percentage of profit before tax.

Free float

The number of ordinary shares that are freely tradable on the JSE Limited, excluding treasury shares and shares held by directors and employee share schemes.

Gross profit margin

Gross profit expressed as a percentage of turnover.

Headline earnings

Profit for the year adjusted for the after-tax effect of goodwill impairment and certain other capital items.

IFRS

International Financial Reporting
Standards, as adopted by the International
Accounting Standards Board ("IASB"), and
interpretations issued by the International
Financial Reporting Interpretations
Committee ("IFRIC") of the IASB.

Clicks Group's consolidated financial statements are prepared in accordance with IFRS.

Interest-bearing debt, including cash, to shareholders' interest at year-end

Interest-bearing debt (including bank overdraft), net of cash balances, at the end of the year divided by shareholders' interest at the end of the year.

Inventory days

Closing inventory at year-end divided by the cost of merchandise sold during the year, multiplied by 365 days.

King III

The revised King Code and Report on Corporate Governance for South Africa, released in 2009, which sets out principles of good corporate governance for South African companies.

Living Standards Measure (LSM)

The South African Advertising Research Foundation (SAARF) LSM is a widely used marketing research tool in South Africa and a unique means of segmenting the market. It divides the population into 10 LSM groups, 10 (highest) to 1 (lowest), grouping people according to their living standards using criteria such as ownership of major appliances and access to services.

Market capitalisation

The closing market price per share at yearend multiplied by the number of ordinary shares in issue at year-end.

Net asset value per share

Net assets at year-end divided by the number of ordinary shares in issue at yearend (net of treasury shares).

Net tangible asset value per share

Net assets at year-end, less intangible assets (such as goodwill and trademarks), divided by the number of ordinary shares in issue at year-end (net of treasury shares).

Operating profit

Operating profit before financing costs, as reported in the group consolidated statement of comprehensive income, adjusted to exclude goodwill impairment, impairment of property, plant and equipment, profit on disposal of businesses and profit/loss on disposal of property, plant and equipment.

Operating profit margin

Operating profit expressed as a percentage of turnover.

Percentage of ordinary shares traded

The number of ordinary shares traded on the JSE Limited during the year as a percentage of the weighted average number of ordinary shares in issue (net of treasury shares).

Price earnings ratio

The closing market price per share at yearend divided by diluted headline earnings per share for the year.

Return on shareholders' interest (ROE)

Headline earnings expressed as a percentage of the average shareholders' interest for the year.

Return on total assets (ROA)

Headline earnings expressed as a percentage of the average total assets for the year.

Segmental reporting

Operational segment

A distinguishable type of operation within the group.

Business unit segment

A distinguishable trading brand or component of the group.

Selling price inflation

The change in the weighted average selling price of a sample of products for the year relative to the previous year expressed as a percentage of the weighted average selling price of the same sample of products for the previous year. Only products sold in both the current and previous years are included in the sample.

Shareholders' interest

Share capital and share premium (reduced by the cost of treasury shares) and other reserves comprising equity.

Shareholders' interest to total assets

The shareholders' interest divided by the total assets at the year-end.

Total income

Gross profit plus other income.

Total income margin

Total income expressed as a percentage of turnover.

Trade creditor days

Closing trade creditors at year-end (adjusted to exclude VAT) divided by the cost of merchandise sold during the year, multiplied by 365 days.

Trade debtor days

Closing trade debtors at year-end (adjusted to exclude VAT) divided by sales for the year, multiplied by 365 days.

Treasury shares

Issued shares in Clicks Group Limited held by a group company in terms of an approved share repurchase programme, the New Clicks Holdings Share Trust and the Clicks Group Employee Share Ownership Trust.

Weighted average number of shares

The number of ordinary shares in issue, increased by shares issued during the year and reduced by treasury shares purchased or shares cancelled during the year, weighted on a time basis for the period during which they have participated in the income of the group.

Weighted average diluted number of shares

The weighted average number of ordinary shares adjusted for the effects of all dilutive potential shares.
