# Financial reporting for impact of civil unrest

In line with the group's recent reporting practice, certain financial information for the prior period has been adjusted for the impact of the KwaZulu-Natal civil unrest in July 2021 and the subsequent insurance recoveries, to present a normalised view of the underlying operating performance of the group.

#### **Overview**

Clicks Group again proved the resilience and defensiveness of its core retail business in challenging trading conditions as adjusted diluted headline earnings per share (HEPS) increased by 10.2% for the first half of the 2023 financial year.

Clicks delivered strong turnover and profit growth despite increased load shedding and mounting pressures on consumer disposable income.

Growth in Clicks was driven by the sustained post-Covid recovery in the beauty and personal care categories, supported by the Clicks ClubCard loyalty programme which passed the 10 million active member milestone. Clicks reported market share gains in all product categories against the comparative six month period.

UPD's performance was impacted by the lower increase in the regulated single exit price (SEP) of medicines granted by the Department of Health and operational challenges during the systems transition at three of its distribution centres.

In November 2022 the group announced the planned acquisition of Sorbet Holdings, the owners of the national franchise chain of Sorbet beauty salons, for R105 million. The transaction is currently awaiting competition authority approval.

#### **Financial performance**

Group turnover increased by 6.8% (excluding vaccinations) to R20.0 billion, with retail turnover increasing by 11.9%. Distribution turnover declined by 1.8% due to lost sales opportunities to Clicks during the systems implementation, lower demand from independent pharmacies and the shift of products within UPD from the preferred supplier to bulk distribution channel. Management is taking the necessary remedial action to restore turnover growth.

Adjusted total income grew by 8.1% to R5.8 billion. The retail margin expanded by 120 basis points and benefited from the strong growth in higher margin private label products, the recovery in the beauty category and fewer vaccinations

administered in the period. The increase in the distribution margin was limited to 10 basis points as the growth in the bulk distribution business was offset by the lower SEP increase. The group total income margin expanded by 160 basis points to 28.9% due to the stronger growth of retail relative to distribution.

Retail costs were impacted by higher insurance premiums, load shedding and the recently introduced levy on imported electrical products, increasing by 8.1%. Comparable retail cost growth was contained to growth of 5.6%. Distribution costs increased by 13.3% due to higher fuel, security and insurance costs, load shedding as well as increased employment costs to maintain service levels during the systems implementation.

Adjusted group operating profit increased by 7.0% to R1.6 billion while the group's adjusted operating margin increased by 40 basis points to 8.2%.

Headline earnings grew by 0.9% to R1.2 billion. Earnings per share declined by 4.2% to 472.1 cents with diluted HEPS increasing by 1.1% to 472.2 cents.

Inventory levels were well managed in both retail and distribution and grew by 4.5%. Group inventory days increased to 81 days (H1 2022: 78 days), with the prior period benefiting from faster stock turn of vaccines.

Cash generated from operating activities before dividends paid totalled R978 million. Capital expenditure of R351 million (H1 2022: R352 million) was invested mainly in new stores and pharmacies, store refurbishments, supply chain and information technology.

The group returned R1.1 billion to shareholders in dividend payments. No share-buybacks were undertaken during the period. At end February 2023, the group held cash resources of R1.2 billion.

#### **Trading performance**

Retail sales, which includes Clicks and the international franchise brands GNC and The Body Shop, increased by 11.9% (excluding vaccinations). Comparable store sales grew by 8.3% with volume growth of 1.7%.

Clicks expanded its retail footprint to 861 stores with the opening of a net 21 new stores in the first half of the year. A further 18 pharmacies were opened, extending the national pharmacy presence to 691.

UPD's total managed turnover, combining wholesale and bulk distribution, increased by 7.8%. Wholesale turnover increased by 1.6%, reflecting the impact of lost sales opportunities to Clicks during the systems implementation and further consolidation of independent pharmacies.

#### **Outlook**

Management expects trading conditions to remain extremely constrained owing to high levels of inflation placing pressure on consumer disposable income while load shedding will continue to disrupt trading patterns.

Clicks plans to open 50 new stores and 40 pharmacies for the full financial year and remains committed to its longer-term target of 1 200 stores. After the end of the reporting period the group acquired M-Kem, a long-established 24-hour pharmacy in the Western Cape. This will be Clicks' first 24-hour pharmacy.

Record capital investment of R958 million is planned for the full financial year. This includes R477 million for new stores and pharmacies and the refurbishment of 45 stores. R481 million will be invested in supply chain, technology and infrastructure, including battery storage at UPD's main distribution centre.

#### **Full-year earnings forecast**

The directors forecast that the group's earnings for the financial year ending 31 August 2023 will increase over the 2022 financial year as follows:

Adjusted diluted headline earnings per share: Increase of 8% to 13% (FY2022: 936.6 cents).

Diluted headline earnings per share: Range of -2% to 3% (FY2022: 1 032.7 cents).

This forecast is based on the assumptions that the trading environment will remain constrained in the second half of the 2023 financial year, with continued high levels of consumer inflation and trading disruption caused by electricity load shedding, and no changes in the regulatory environment.

Shareholders are advised that this forecast is the responsibility of the board of directors and has not been reviewed or reported on by the group's independent auditor.

#### Interim dividend

The board of directors has approved an interim gross ordinary dividend for the period ended 28 February 2023 of 185.0 cents per share (2022: 180.0 cents per share). The source of the dividend will be from distributable reserves and paid in cash.

#### Additional information

Dividends Tax (DT) of 20% amounting to 37.0 cents per ordinary share will be withheld in terms of the Income Tax Act. Ordinary shareholders who are not exempt from DT will therefore receive a dividend of 148.0 cents net of DT.

The company has 243 969 611 ordinary shares and its income tax reference number is 9061/745/71/8.

Shareholders are advised of the following salient dates in respect of the interim dividend:

# Accounting policies and notes

1.1. These condensed consolidated financial statements for the six months ended 28 February 2023 have been prepared in accordance with the requirements of the JSE Limited Listings Requirements for interim reports and the requirements of the Companies Act of South Africa. The Listings Requirements require interim reports to be prepared in accordance with the framework concepts and the measurement and recognition requirements of International Financial Reporting Standards (IFRS) and the SAICA Financial Reporting Guides as issued by the Accounting Practices Committee and Financial Pronouncements as issued by the Financial Reporting Standards Council and to also, as a minimum, contain the information required by IAS 34 Interim Financial Reporting.

The information contained in the interim report has neither been audited nor reviewed by the group's external auditors. These condensed consolidated financial results have been prepared under the supervision of G Traill (CA), the chief financial officer of the group.

The accounting policies used in the preparation of the financial results for the six months ended 28 February 2023, are in terms of IFRS and are consistent with those applied in the Audited Annual Financial Statements for the year ended 31 August 2022.

- 1.2. Related party transactions for the current period are similar to those disclosed in the group's annual financial statements for the year ended 31 August 2022. No significant related party transactions arose during the current period.
- 1.3. The carrying values of all financial instruments approximate fair value. All financial instruments are held at amortised cost, with the exception of derivative instruments which are designated as hedging instruments, the investment in Guardrisk Insurance Company Limited and investments held by the New Clicks Foundation Trust, which are accounted for at fair value through profit or loss. The fair value of financial instruments that are not traded in active markets are determined by using valuation techniques; if all significant inputs required to fair value an instrument are observable, the instrument is included in level 2 and if the significant inputs required to fair value an instrument are unobservable, the instrument is included in level 3. The derivative instruments comprise equity derivative hedges which are calculated using a Monte Carlo option pricing model with reference to the closing share price, 250-day historical volatility, the 12-month trailing dividend yield and the risk-free rate; and forward exchange contracts which are calculated using standard market calculation conventions with reference to the relevant closing market spot rates, forward foreign exchange rates and interest rates, both of which are classified as level 2 instruments. All financial instruments accounted for at fair value through profit or loss are considered to be level 2 instruments with the exception of investments held by the New Clicks Foundation Trust which are considered to be level 1 instruments, since the investments are listed instruments with a valuation based on listed prices. There have been no transfers between levels 1, 2 and 3 instruments during the period. The group applies hedge accounting and where derivative instruments are designated as hedging instruments in a cash flow hedge, fair value gains/losses are recognised in other comprehensive income and released either to profit or loss or the hedged item when the forecast transaction takes place.
- 1.4. The majority of the current and non-current derivative financial assets are to hedge obligations under the cash-settled share compensation scheme.

#### 1.7. Impact of civil unrest

The civil unrest in KwaZulu-Natal (KZN) in July 2021 impacted 52 Clicks stores and one The Body Shop store, as well as two of the group's distribution centres. The group suffered significant physical damage and loss to its fixed assets, cash on hand and inventory in the affected stores and distribution centres. The group has adequate South African Special Risks Insurance Association (SASRIA) and general insurance cover for material damage to assets, stock and business interruption.

As disclosed in the group's 2022 annual financial statements, the group entered into a full and final settlement agreement with SASRIA amounting to R710.3 million. An amount of R523.9 million was recovered for loss of stock, R19.4 million for other costs and R167.0 million for replacement of fixed assets.

The group headline earnings excluding the impact of the civil unrest is disclosed as follows:

#### 1.8. Acquisition of Sorbet Holdings (Proprietary) Limited and its subsidiaries

Effective 8 November 2022, the group signed a binding agreement to acquire Sorbet Holdings (Proprietary) Limited and its subsidiaries for a consideration of R105 million, payable in cash. The Sorbet group is a group of companies with interests in the franchising of hair and beauty salons, including Sorbet and Sorbet Man. The group operates in South Africa.

The transaction will result in the Clicks group holding 100% of the issued share capital of all Sorbet group entities, including Sorbet Brands (Proprietary) Limited in which the Clicks group already holds 25% as an investment in associate.

The acquisition date is expected to be the first day of the month following the approval of the transaction by the relevant competition authorities. As the transaction has not yet been concluded and final approvals are pending, the initial accounting for the business combination is incomplete. The acquisition date fair values of the assets and liabilities acquired will be disclosed following completion of the transaction.
